ARFA KARIM JOB FAIR - 2012
Organized by Career Counseling Center, UAF

Many students arrive at University of Agriculture, Faisalabad (UAF) with a firm idea about where they are going in their careers. Many more, however, are unsure about what they exactly want. Career Counseling Center (CCC) at UAF offers a variety of services to the students. Students seek counseling and other help during their first semester and to continue to do so for many coming years. The CCC is not a career-placement bureau but the role of the CCC is to train and develop students to maximize their opportunities for getting full-time positions.

In order to help students find and apply to as many jobs and internships as possible, the CCC gives students the opportunity to meet with recruiters and submit resumes for jobs and internships. In 2011 CCC organized first ever job fair during the Golden Jubilee Celebrations at UAF. This year the center is organizing 2nd job fair on March 15th during the Spring Festival 2012 (March 12 to March 17). In recognition of Arfa Karim’s services, a computer genius from Faisalabad who became World’s Youngest Microsoft Certified Professional in 2004, to promote the name of Pakistan this Job Fair has been named after Arfa Karim.
